**EDITORIAL STATEMENT:**

The Scientific Bulletin: "ACTA TECHNICA NAPOCENSIS ELECTRONICA-TELECOMUNICATII (ELECTRONICS AND TELECOMMUNICATIONS)" from Technical University of Cluj-Napoca, Faculty of Electronics, Telecommunications and Information Technology has the aim to promote new ideas and results of the research effort of the educational staff. In this frame it can be seen as a mirror of research activity of professors, PhD graduate students and undergraduate students. Technical papers with applicative purposes are also encouraged for publication.

The main objective is to disseminate the current results of fundamental and applicative research of the members of the faculty. The editorial board encourages the collaboration with other researchers from different universities in the country or outside the country. In this frame our intention is to transform our national journal in an international one. Electronic distribution is also taken into account.

The Journal is issued under the direction of a local editorial board and with the valuable help of scientific committee formed by high level professional academic people from the main technical universities over the country.

The Journal is indexed in ProQuest CSA's Technology Research Database (TRD), Scirus and ArXiv.
